"Applied research in multimodal deepfake detection, generative AI safety, and scalable vision-language systems"

Summary

Research assistant and generative AI engineer with professional experience in multimodal deepfake detection, NSFW defense systems, and large-scale computer vision model development. Published at CIKM, WWW Companion, and WACV, with active work spanning academia and industry in South Korea and the United States.

Education

Sungkyunkwan University — *Suwon, South Korea*

Doctor of Engineering in Computer Science — *Current*

- Grade: 4.37/4.50
- Research Area: Deepfake Detection, Agentic AI, Multimodal Learning, Generative AI

Bahria University Islamabad, Lahore Campus — *Lahore, Pakistan*

M.S. in Computer Science — *Dec. 2019 - Dec. 2022*

- Final Grade: 3.47/4.00
- Thesis: "Deepfake Prevention for Videos using Deep Learning and Encryption Techniques"

COMSATS University Islamabad, Virtual Campus — *Islamabad, Pakistan*

B.S. in Software Engineering — *Dec. 2014 - Sep. 2019*

- Final Grade: 3.01/4.00

Work Experience

Sungkyunkwan University — *Suwon-si, South Korea*

Research Assistant — *Mar. 2024 - Current*

- Working on multimodal deepfake detection and deepfake generation research.
- Used autoencoders, vision-language models, and LLM correlations for detection.
- Produced one accepted publication and one additional submission.

Akool.com — *Los Angeles Bay Area, USA (Remote)*

Remote Backend Engineer, Generative AI (Part-Time) — *Mar. 2022 - Mar. 2024*

- Research and development for generative AI systems.
- Implemented computer vision pipelines and model training in Python.

Lahore High Court Lahore — *Lahore, Pakistan*

IT Assistant — *Oct. 2018 - Jan. 2024*

- Supported operations of the Case Flow Management System (CFMS).
- Managed day-to-day IT operations and support activities.

Upwork and Fiverr — *Lahore, Pakistan*

Software Developer — *Dec. 2014 - Mar. 2023*

- Freelance software development and web services.

Sessions Courts Khanewal — *Khanewal, Pakistan*

Software Engineer — *Oct. 2015 - Dec. 2018*

- Developed a case flow management system to handle court records and hearings.
- Centralized district courts to a unified database and reporting pipeline.
- Created an Android mobile application for related court workflows.

Skills

Research Deep learning, multimodal deepfake detection, Agentic AI, Large Language Models (LLMs), image processing, scientific writing

Programming Python, Django, Laravel, Vue.js, React.js, Node.js, TensorFlow, PyTorch, Keras, Pandas, LangChain, API integration

Cloud Services AWS (EC2, S3, Lambda), Google Cloud Platform, cloud deployment, model serving and MLOps workflows

Tools LaTeX, Adobe Photoshop, Adobe Illustrator, Microsoft Office (Word, Excel, PowerPoint), Google Workspace

Professional Teamwork, active listening, decision-making, creativity and problem solving

Languages Saraiki (native), Urdu (C2), English (C1), Korean (basic)

Academic Service & Volunteering

Reviewer: AAAI 2027, AAAI 2026, WWW 2024, WDC 2025, ACM MM 2024. Remote | January 2024 - Current.

Program committee: WSDM 2027; ICASSP 2026; MMM 2026; WDC 2025.

IJCAI Conference - Conference volunteer. Jeju Island, South Korea | August 2024 - Current.

Bahria University Lahore - Research support volunteer. Lahore, Pakistan | December 2021 - Current. Assisted with supervision of undergraduate projects after completing MS; supported project management and student mentoring.

Sessions Courts Khanewal - Case flow automation volunteer. Khanewal, Pakistan | June 2018 - Current. Led court process automation initiatives and mobile app support for internal workflows.

Challenge Results & Scholarships

2026 | 1st place - Image Edit Detection and Localization Challenge (Part 2), IEDAL2. ICIP 2026, UL Research Institutes - Digital Safety Research Institute. Tampere, Finland.

ICIP 2026 challenge details

2026 | 3rd place - Grand Challenge on Multimedia Verification (MV2026). ICMR 2026. Amsterdam, The Netherlands.

2026 | 2nd place - SAFE: Image Edit Detection and Localization Challenge 2025. WACV 2026, UL Research Institutes - Digital Safety Research Institute. Tucson, Arizona, USA.

Sungkyunkwan University Excellence Scholarship - Sungkyunkwan University, Suwon, South Korea.

BK21 Scholarship - BK21 Program, South Korea.

6th Semester Full Fee Waiver Scholarship - Bahria University Lahore, Lahore, Pakistan.

Half Fee Waiver Scholarship in BS Software Engineering - COMSATS University Islamabad, Islamabad, Pakistan.

Certifications

2022-2023 | Deep Learning Specialization - Coursera (Andrew Ng).

Certificate

Adobe Illustrator Course - Fiverr.
